Plan ahead with Avenues, and avoid relying on busy loved ones, or limited options.

Finding a Provider is Harder

Coordinating care on your own is difficult when considering potential waitlists, or home care staffing shortages.

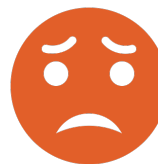

Care Costs Will Be Much Higher

Costs rise every year. If you wait, you'll pay significantly more than if you had planned ahead.

Delays Can Be Dangerous

When you finally need care, there may be long wait times for an assessment and care team availability.

Stress on You & Family

In a crisis, your loved ones may be left struggling to coordinate care, leading to rushed decisions, higher costs, and fewer choices.
